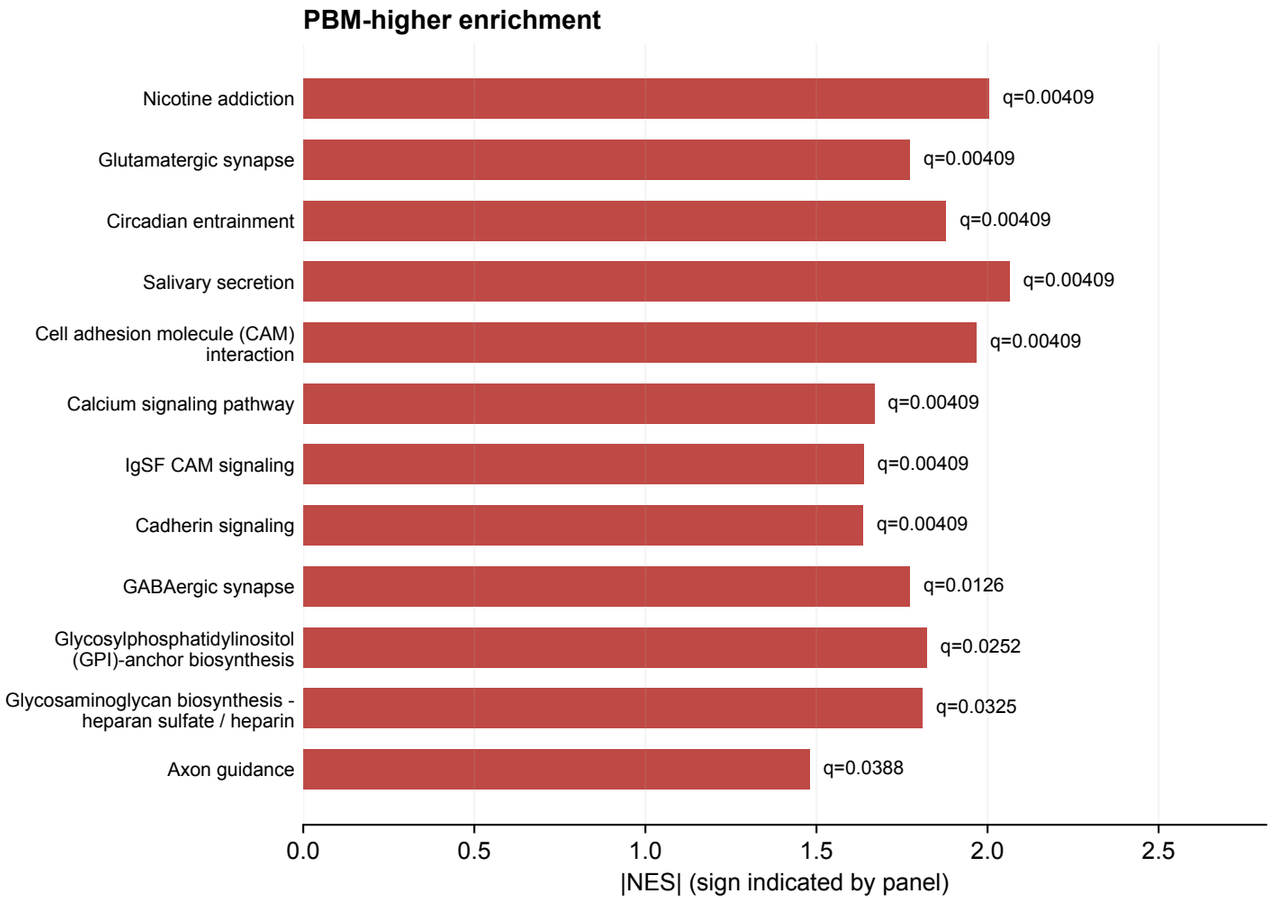
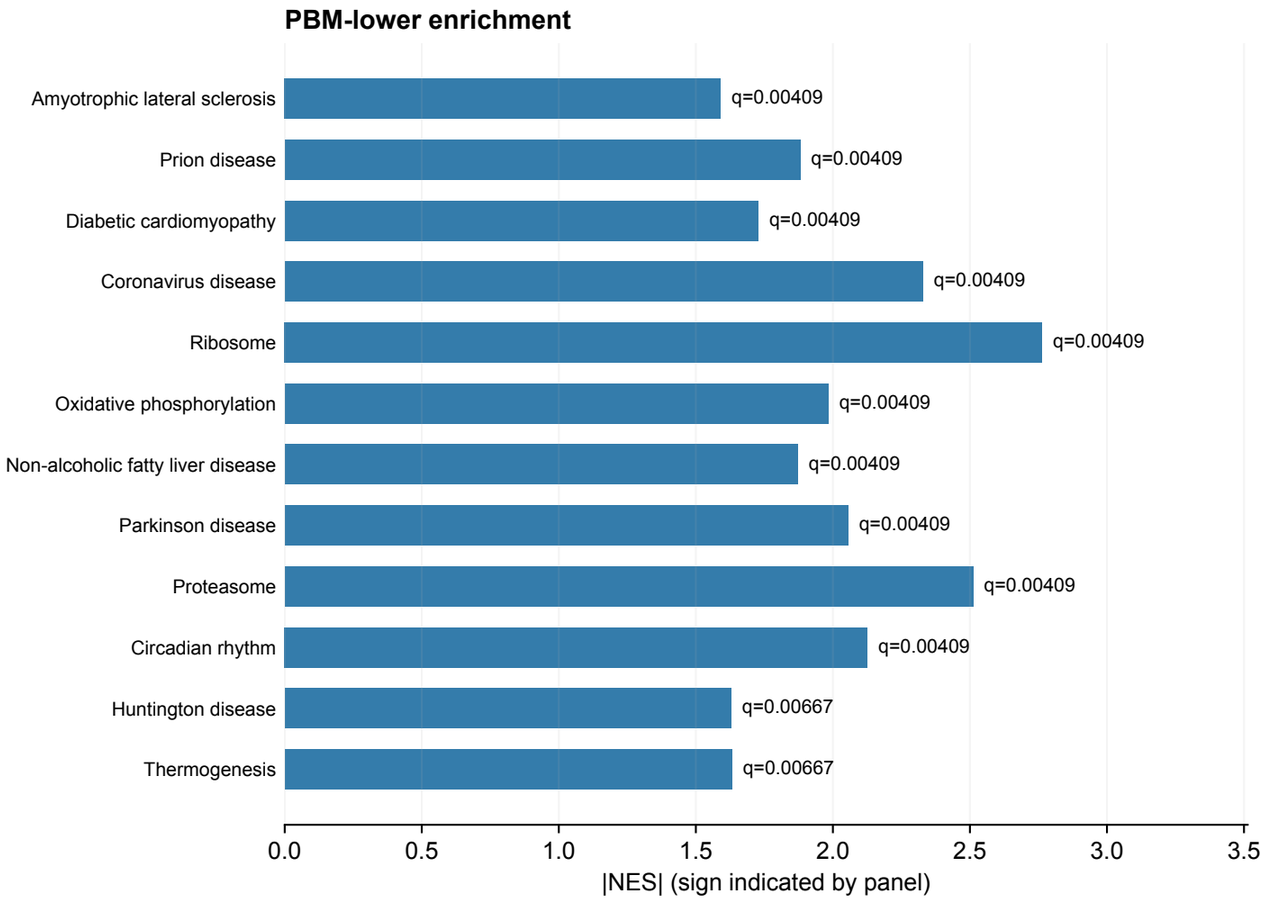
GSE325653 | whole-KEGG preranked GSEA
Prefrontal cortex, 1064 nm | deposited GEO DESeq2 statistics





Top 12 by nominal P within each direction; grey = q >= 0.05. q: BH across all eligible KEGG + 9 pre-specified ROS GO sets in this dataset.
Competitive gene-label permutations; pathway names referring to diseases do not establish those diseases or their improvement.
