
Existing exploratory P57-P59 cohort; age not exactly matched. Male Snap25;Ai14, 10x v2.
n = cells, not animals. Region/preparation date confounded; no regional P/FDR or PBM treatment contrast.
Arpp21: original PBM common-down candidate. Dlgap1: original PBM common-up candidate.
This figure shows baseline atlas expression, copied unchanged from the original result CSV.
